### **Framingham Public Works to Begin Citywide Street Sweeping**

**FRAMINGHAM, MA** – Starting the week of April 4, the City of Framingham's Department of Public Works will begin its Citywide Street Sweeping Program.

Street sweeping will be completed in zones. [Zone 1](#) is scheduled for Monday-Tuesday, April 4-5, weather permitting. View the [Citywide Sweeping Program Map](#) to reference which zone your street/road is located in.

Again, **street sweeping operations are weather-dependent**. All roads will have signage posted before the sweepers enter the neighborhoods.

Please **do not park in the street** when signs are posted. **Vehicles obstructing street sweeping equipment will be towed.**

Visit the [Citywide Street Sweeping Page](#) for the anticipated schedule and maps, which will be updated regularly.

**Please Note:** The [Urban Street Sweeping Program](#) will begin the first week of May. Additional information about this program will be released later this month.
